

# Guide Dogs for the Blind Puppy Travel Request Form

Before planning your trip, review the “Traveling with a GDB Puppy” section of the Guidebook. If you are traveling over six hours from your home, over a country border, or anywhere by airplane, you will need approval from your PFM. Complete this Travel Request form and send it to your puppy club leader or PFM, and wait for PFM approval.

Please list any other important information about your trip that should be considered for the puppy:

Please remember that GDB does not rely on individual state law to allow public access to puppies in training, even if the state law provides this privilege. If the presence of a GDB puppy is not welcome by a merchant or other place of public accommodation, we ask that you thank them for their time and remove the puppy.

Make sure you have a back-up plan. What arrangements can be made for the GDB puppy if public access is denied during your trip? (especially for flights and overnight accommodations)
